Re: West Cross Water Infrastructure Improvements, Construction Notice

Date: May 26, 2021

Dear Water Customer,

Ypsilanti Community Utilities Authority (YCUA) is improving water system components along West Cross Street from N Summit Street to Huron Street. This project is scheduled to start in early June and will end in September this year.

Between June 1st and Labor day, the contractor VIL Construction, Inc. will be working along West Cross performing the water main improvements for YCUA. The contractor is permitted to work Monday through Saturday from 7:00am to 8:00pm. The project will be constructed in phases to allow for construction across the entire road while maintaining one lane for the motoring and bicycling public; sidewalk closures will be signed in advance. Construction is to start on the north side of the road then progress to the south side. At any time, the traffic alignment may shift lanes to accommodate the construction. There may be intermittent delays along the street as construction progresses.

Due to the construction, **parking will not be allowed on Cross Street**. We ask that you and your customers park on the side streets or parking lots, not park on West Cross Street. Several signed 15-minute pickup/dropoff spaces will be provided on side streets as well.

There will be water shut offs to perform the work. All water shut offs will be communicated in advance and written notice provided 24 hours before any planned water shut offs. Emergencies can occur that require the water to be shut off without warning.

There is an informational prerecorded meeting located here for review and more information about the project.

We will do everything we can to monitor the work site to ensure that pets and children stay clear. We ask that you also help us to ensure that everyone stays clear of the work area to ensure the public's safety. If someone from YCUA or OHM contacts you at your address, the person will be able to provide identification of who they are, business cards matching their identification and a clear explanation of who they are or what they are doing. Please contact us at any of the numbers below for confirmation of identification or answers to any questions.

Your patience through this process is much appreciated.
